

The MetroHealth System
Public Safety Professional COVID19 evaluation and testing
440 -59COVID (440-592-6843)

- If you are a public safety professional and become ill with fever, cough, sore throat or other **flu-like symptoms** concerning for COVID-19, please call **440-59COVID (440-592-6843)**.
- Please identify yourself as a public safety professional (job type and agency).
- You will be asked a few questions by a nurse to evaluate your symptoms.
- You will be given an appointment time where a physician will call you (usually within an hour) to further evaluate your symptoms and provide medical advice and prescriptions if appropriate.
- If the physician agrees that testing is appropriate, you will be contacted by phone with an appointment date and time at one of the MetroHealth drive-through testing sites.
- Results are typically available within 1 day after testing occurs.

We share your commitment to serving our community and appreciate the care and support you provide in this extraordinary time.
